

The Law of Proportion

Rev. Jonathan White

Text: Ecclesiastes 11:4-6; 2 Corinthians 9:6-8

Introduction: God has promised that what we sow for Him will be multiplied 30, 60, or 100 times. The Law of Proportion is that those who sow more reap more—much more!

Sowing is more about **CHARACTER** than about **CIRCUMSTANCES**, because God can easily work beyond **CIRCUMSTANCES**!

The decision to sow:

Is always specific to a particular _____, _____, and _____.

Always requires _____ in God and _____ to Him.

Effective sowers rely on their _____ senses as well as their _____ senses.

*Those who trust God more, sow more,
and those who sow more, reap more!*

To sow more seed:

Pray for the _____ and _____ of God —
determine to _____ what He wishes to do, then

Decide that _____ sense matters as much or more than
_____ sense — trust your spiritual _____!

Don't feel that you always have to be able to _____
your decisions to sow—they often won't make sense to others.

Give the benefit of the doubt to _____ rather than
_____.

Conclusion:

Fear is the primary reason people don't sow more.

How much are you sowing?
